

CLASSIC HIGHLIGHTS TOURS

Montreal is the city of festivals, multiculturalism, joie de vivre, fine dining and a hub for research and development in Artificial Intelligence. Lots going for it! Right down to urban planning, it is unique in North America due to the coming together of two cultures.

We'll discover the must-see buildings, museums, squares, monuments and delve into the history of the fourth largest French-speaking city in the world -- all with a personalized approach. No tour would be complete without a list of recommendations: restaurants, bars, activities, festivals and shopping.

The Old Montreal walking tour makes a great **shore excursion, since our port is adjacent to the old town. I can pick you up near the cruise ship port.
